Scrutinize minutely the records / documents pertaining to clients belonging to aforesaid category

- **Guidelines on Identification of Beneficial Ownership:**

For non-individual customers as part of the due diligence measures sufficient information shall be obtained in order to identify persons who beneficially own or control securities account. Whenever it is apparent that the securities acquired or maintained through an account are beneficially owned by a party other than the client, that party should be identified and verified using client identification and verification procedures as early as possible. The beneficial owner is the natural person or persons who ultimately own, control, or influence a client and/or persons on whose behalf a transaction(s) is/are being conducted. It includes persons who exercise ultimate effective control over a legal person or arrangement.

Company will follow below mentioned approach while determining beneficial ownership:

A. For Clients other than individuals or trusts:

Where the client is a person other than an individual or trust, viz., company, partnership or unincorporated association/body of individuals, the Company will identify the beneficial owners of the client and take reasonable measures to verify the identity of such persons, through the following information:

- a. The identity of the natural person, who, whether acting alone or together, or through one or more juridical person, exercises control through ownership or who ultimately has a controlling ownership interest.

Explanation: Controlling ownership interest means ownership of/entitlement to:

- i. more than 10% of shares or capital or profits of the juridical person, where the juridical person is a corporate/company;
 - ii. more than 15% of the capital or profits of the juridical person, where the juridical person is a partnership; or
 - iii. more than 15% of the property or capital or profits of the juridical person, where the juridical person is an unincorporated association or body of individuals.
- b. In cases where there exists doubt under clause 1 (a) above as to whether the person with the controlling ownership interest is the beneficial owner or where no natural person exerts control through ownership interests, the identity of the natural person exercising control over the juridical person through other means.
Explanation: Control through other means can be exercised through voting rights, agreement, arrangements or in any other manner.
 - c. Where no natural person is identified under clauses 1 (a) or 1 (b) above, the identity of the relevant natural person who holds the position of senior managing official.

B. For clients which is a trust:

Where the client is a trust, the Company shall identify the beneficial owners of the client and take reasonable measures to verify the identity of such persons, through the identity of the settler of the trust, the trustee, the protector, the beneficiaries with 15% or more interest in the trust and any other natural person exercising ultimate effective control over the trust through a chain of control or ownership.

C. Exemption in case of listed companies:

Where the client or the owner of the controlling interest is a company listed on a stock exchange, or is a majority-owned subsidiary of such a company, it is not necessary to identify and verify the identity of any shareholder or beneficial owner of such companies.

D. Applicability for foreign investors:

Intermediaries dealing with foreign investors" viz., Foreign Institutional Investors, Sub Accounts and Qualified Foreign Investors, may be guided by the clarifications issued vide SEBI circular CIR/MIRSD/11/2012 dated September 5, 2012, for the purpose of identification of beneficial ownership of the client.

- Do not accept client registration forms which are suspected to be fictitious:

Ensure that no account is being opened in a fictitious / benami name or on an anonymous basis.

- Do not compromise on submission of mandatory information/documents:

Client"s account should be opened only on receipt of mandatory information along with authentic supporting documents as per the regulatory guidelines. Do not open the accounts where the client refuses to provide information/documents and we should have sufficient reason to reject the client towards this reluctance.

- Do not open an account where CDD measure / KYC policies cannot be applied i.e. where client is suspected to be non genuine and there is perceived non co-operation from the client in providing full and complete information.
- Evaluation to be carried out to identify whether there is any suspicious transaction being carried out by the client and accordingly to determine whether to freeze or to close the account.
